

AMENDMENTS TO THE SPECIFICATION:

In the Specification after the title, please insert the following paragraph:

6/23/05
This is a divisional of co-pending U.S. Patent Application No. 10/046,479, filed on October 19, 2001, now U.S. Patent No. 6722539, entitled MECHANISM FOR ENGAGING PORTABLE EQUIPMENT AGAINST A BELT CLIP, which is hereby incorporated by reference in its entirety.

Please amend the paragraph beginning at page 12, line 20 and ending on page 13, line 2 as follows:

-- Fig. 11 is a view for showing a mechanism of a belt clip corresponding to the mechanism of the portable equipment shown in Fig. ~~[[1]]~~ 10, where (A) is a left side elevational view for showing the belt clip; (B) is a front elevational view; (C) is a sectional view taken along an arrow line Y-Y in (B); and (D) is a sectional end view taken along an arrow line X-X in (B). -- .

On page 15, please amend the paragraph starting at line 12 as follows:

-- Practically, although the claw 209 in Fig. 11 is made such that its side wall is perpendicular to the surface of the engaging plate 203, the claw 29 in this preferred embodiment is formed such that the side wall of the upper side is applied as a slant surface 29a, and a ~~planer~~ planar size formed by its width w' and a length (b) is set to be included between the inwardly directed plane of the protrusion 8 of the flange 5 and the annular frame 7 shown in Fig. 1(A). -- .
